

# ELOPE OR WED WITH A TWIST

EWWTAT are now supplying every couple with a free printed seating chart for their wedding.

The chart is delivered to the venue in an A2 size printed chart and we frame it and display it on an easel for you.

A2 size, is the size of 4 x A4 sheets of paper.

We do not advise not having name tags and a seating chart as it causes a lot of chaos with guests trying to work out where to sit.

We do recommend if you are not having a seating chart and name tags, that you at least have name tags and designated seats for direct family members.

We have some at the venue that you can hand write their names on the day of the wedding if you need.

Sharon is our designer and also prints our seating charts.

She also owns the photo booth company Hunter Valley Photoboosths.

One of her booths actually lives at the venue so you can be sure it will be there there if you book it! If you are interested let me know.

All she needs from you is a rough plan of where you would like your guests and bridal party seated and what colour and theme you are having.

Please include any dietary requirements and names, high chairs, and children that need kids plates.

She will then design your chart and email it to you for approval.

# ELOPE OR WED WITH A TWIST

It won't be printed until a few days before your wedding as things can change at the last minute with your guests, so please pass on any changes that may come up before then.

We have attached a few examples of layouts for you. Please see below.

We find it best to have the girls on the left side of the bridal table (when your guests are looking at you) as the sunsets on the right side and it can get a little bright briefly while the sunsets over the mountainside so we prefer to have the girls more comfortable.

Try to have 8 guests at a table so there is plenty of room, but you may also have 10 - the tables are large and roomy. You do not have to fill all tables.

For smaller weddings, there is always empty tables which are good to use for other things on your wedding day.

You may have any style and colour you like, just discuss this with Sharon. You can have the tables joined together in 3 rows or you may have them separated, please let me know your preference.

If you are having a food buffet table for your meal, we always use table 9 for that. If your wedding is large and guests are at table 9, we will put a food buffet table up in the patio for food service.

If you are not sure about where or how to place guests at your wedding please talk to me and I will help.

This is Sharon's email [photoboosts@aussiebroadband.com.au](mailto:photoboosts@aussiebroadband.com.au) and she will be contacting you about your seating chart.

Sincerely

Yoda
